

## Steps for Making Coin

- When you are completely done with your Coin and Brochure Planning Template come to me for a blank paper and a silver coin template.
- You only get one so work WITH your mistakes.
- Use a pen to etch into the coin.
- Remember to put this year on it since the coin will be issued this year.

## Steps for Making Brochure

1. Fold your paper like a fat burrito NOT like a skinny taquito.
2. With your circular coin, trace it on the inside of the brochure.
3. Then trace it onto your other two flaps but make sure the circles line up.
4. Only cut out the circle on the flaps. DO NOT CUT OUT THE CENTER CIRCLE. This is where you will glue your coin.
